

FINANCIAL SERVICES CASE STUDY

Safe, secure and with all financial data backed up.

THE BUSINESS EA CHARTERED ACCOUNTANTS

EA (UK) LLP are chartered accountants and tax advisors enabling individuals and businesses to maximise their financial potential. They are passionate about delivering cost-effective compliance services and creating innovative solutions.

Client since 2009

Industry Financial Services

Based in North London

Website eaca.co.uk

THE CHALLENGE

EA Chartered Accountants were in the process of reviewing their IT support service when they gave CJAZ Consulting a call. CJAZ completed a full IT audit which allowed a complete mapping out of their IT systems and hardware, giving a totally transparent picture of where they were and where the business needed to go.

This comprehensive, strategic approach filled EA Chartered Accountants with confidence that they were now in safe hands.

THE PROJECT

The first priority was creating the right infrastructure for this growing, multi-site accounting firm. So, new servers were installed and their backup schedule put in place.

Having worked together for many years, CJAZ Consulting has helped with many IT projects including migrating their three sites to Office 365. The latest IT development is installing new Virtual Servers and migrating their IRIS Accountancy application.

THE RESULT

EA Chartered Accountants have complete confidence in CJAZ's expertise. Their IT systems run smoothly and efficiently, ensuring they can deliver the best service to their clients.

EACA are safe in the knowledge that confidential data is secure and backed up, all vital factors for a reputable accounting firm.

CJAZ SERVICE BENEFITS

- Super responsive service
- Improved efficiency
- Business continuity
- Stay competitive
- Business growth
- Cyber secure
- Save money
- Secure data.

"CJAZ has been proactively supporting our business and our systems for over 10 years and ensures that we stay with current technology and most of all secure from threats."

"The CJAZ team is responsive with a personal touch."

Thrasos Vassiliades, Partner, EA Chartered Accountants
